MODERN MIXOLOGY MEETS EVENT ARTISTRY WITH MAU DRINKS & MAU DÉCOR

Born from a love of beautiful hosting,
MAU brings together mixology-led
bar services and curated event
décor into one elegant vision.

BEHIND EVERY MAU EVENT

Behind every MAU event is founder Maude Mphosi's long-standing relationship with hospitality.

Years spent inside events shaped her understanding of how they function in real time – where energy builds, where it drops and how details influence the way people feel in a space.

MAU Décor was the first expression of that instinct. Rather than approaching décor as styling alone,

the focus was on how environments support movement, connection and atmosphere. Officially launched in October 2025, each piece is personally sourced for quality, versatility and presence.

That same thinking led to MAU Drinks, now led in partnership with award-winning mixologist Tebogo Nyembe. Together, MAU creates events that linger in memory.

Tebogo Nyembe is the driving force behind MAU Drinks, shaping the beverage experience with intention and detail. Working side by side with the bartending team, he leads from within the service – refining technique, guiding presentation and making sure every drink feels true to the brand.

As curator of MAU’s liquid offering, Tebogo designs menus that balance creativity with practicality,

always aware of how drinks move with the energy of a space. From ingredient choices to the final garnish, his focus is on effortless moments for guests and a confident, supported team behind the bar.

At the heart of MAU Drinks, his role goes beyond what’s in the glass – it’s about building a culture of collaboration and excellence that carries through every pour.
